

REMARKS

The Examiner objected to the specification and claims for use of terms contrary to the conventional usage in the art. Specifically, referring to heat exchangers 4 and 5 as "condensers" rather than "evaporators" and compressor 3 also as a "condensor". The specification, including the Abstract and the claims now have been amended to correct the terms. The Examiner also required that the claims referenced on page 3 of the specification be cancelled, which also has been done.

The Examiner is thanked for the indication of allowance of Claims 11-19, once the terms were corrected as has now been done.

If the Examiner has any questions regarding this amendment, the Examiner is requested to contact the undersigned.

Respectfully submitted
